3rd GRADE NEWS

FROM OUR S

We hope everyone has a wonderful winter break! We wish everyone safe travels and a relaxing, restful week spending time with their loved ones.

Reminder to room parents that Wednesday will be our holiday party! Thank you for planning lots of fun games for the kiddos. We are looking forward to seeing you then!

Another friendly reminder from the clinic that all children regardless of grade should have a change of clothes in a baggie in their backpack. Students can always have an accident, a spill or a tear. The clinic will continue to keep what they have in case someone doesn't have any with them, but their sizes & supply is running very low.

Lastly, the week of January 6 when we get back from break there will be no lunch visitors. We need some time for everyone to adjust back to our daily routines after a long break.

A PEEK AT DECEMBER

16	17	18 Holiday Party- Room Parents Only	19	20 RFF Day- No school!
22 Winter Break	23 Winter Break	24 Winter Break	25 Winter Break	26 Winter Break

FOR YOUR CALENDAR

- ★ 3rd Grade Musical Performance: January 29, 2020
- ★ Milestone Testing Window: April 20-24

3rd GRADE NEWS

Next Week: How You Can Help at Home

Check out our website: <https://rne3rd.weebly.com/>

For math next week, students will test on all our Unit 3 Standards including multi-step word problems using all four operations, arithmetic patterns, and finding area and missing side lengths. A study guide was sent home this week and their test date will be in your child's agenda. Check out our unit letter for more examples on these topics! Do not forget you can always add in practice with iReady as well.

Math

ADVANCED MATH with MS. LESCHER: We are continuing to work on rounding larger numbers and adding and subtracting larger numbers. IF (no pressure) you would like extra math work over the break please let me know. lescherka@fultonschools.org Happy Holidays to all of you!

ACCELERATED MATH with MS. BLOUNT: Next week we will be taking our unit 3 test. This test will cover equivalent fractions and comparing fractions using area models, number lines, and finding common denominators.

Reading

In reading this week, we will continue reading to learn in our nonfiction unit. Students will dive deep into finding the main idea using text evidence to support their answers. You can help at home by choosing to read nonfiction books with your child and find the main idea of chapters and supporting details. Your child can recall these using their hand as a guide or a boxes and bullet format. Make sure your child is differentiating their opinion from that of the author's.

If you are looking for more reinforcement over break do not forget about logging into MyOn.com to log hours that could win tickets to the March Madness Final Four game being hosted in Atlanta in 2020. You can also logon to iReady reading for more explicit reading instruction practice.

**The window for BAS has opened- your teacher will be in touch as your child's level may be changing!

Writing

In writing this week, we will continue our unit on persuasive/ opinion writing. We will use our words to try to make changes in our school and eventually broadening our perspective to the world. To keep up at home- have your child justify with at least three reasons why they agree or disagree with you on a topic.

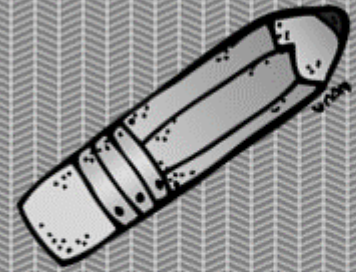

Science

Get ready to rock! This week students will begin studying rocks and minerals! This will begin with identifying rocks based on their shape, size, color, streak, hardness, and luster. You can help at home by asking students about this geological vocabulary and what kind of rocks you see outside your homes!
