3rd GRADE NEWS

FROM OUR S

Thank you all again for joining us this past week at our camping theme writing celebration! The kids had an absolute blast sharing their work with everyone. It's hard to believe we are already heading into October this upcoming week! October is SOCKTOBER at Roswell North. Please send in any new socks with your child to be placed in the collection boxes all over school. Our Interact Club will be donating the socks to families in need.

Mark your calendars because Tuesday, October 1 is picture day. If you would like to purchase school photos you can return the picture form or go online at mylifetouch.com. If you order online there is no need to return the form- only if you are paying by cash or check.

This upcoming week is also special because we are inviting our dads to join us for recess. Third grade's recess time is from 12:30- 1 including walking time to and from the classrooms. Bring balls, outdoor toys, and lots of energy to keep up with these third graders. Can't wait to see you there!

A PEEK AT OUR UPCOMING WEEK

30	1 Picture Day!	2	3	4 Friday Folders
----	-------------------	---	---	---------------------

Please remember to return any signed grades and field trip permission form!

FOR YOUR CALENDAR

- ★ IOWA Test of Basic Skills (ITBS) Window: October 21-November 1
- ★ 3rd Grade Musical Performance: January 29, 2020
- ★ Milestone Testing Window: April 20-24

Car Trivia for Review at Home...

- Math: Have your child notice equal groups of objects and give you the matching multiplication sentence.
- Reading: Have your child practice making predictions based on what they knew happened previously in a story.
- Writing: Have your child discover something they are an expert in and would like to teach someone as we move into informational writing.
- Science: Have your child talk about a plant or animal they have seen in Georgia and what habitat and region they believe it lives in.

3rd GRADE NEWS

WHAT'S HAPPENING IN...

Math

Students will continue to learn about multiplication as equal groups of a number, this week specifically focusing on multiples of ten (ex. $70 \times 4 =$). We will introduce division this week as finding the "how many groups" or the "how many in each group" from our multiplication problems. We will also be highlighting the mathematical vocabulary: multiples, quotient, dividend, divisor, factor, and product.

ADVANCED MATH with MS. LESCHER: Our class is continuing to explain equivalent fractions in special cases, and compare fractions by reasoning about their size.

ACCELERATED MATH with MS. BLOUNT: Students will start Unit 2 on Monday! They will be working to interpret a multiplication equation as a comparison. They will represent verbal statements of multiplicative comparisons as multiplication equations.

Reading

In reading this week, we will begin our spooky mystery unit. Readers will embody their inner detective and learn to stay on high alert for possible hidden clues from the author. Throughout the unit, we focus on making and revising predictions in our own books while we explore through our new class read aloud- *The Absent Author*. We will also continue word solving strategies and rereading with a clear purpose in order to learn more.

Writing

In writing this week, students will become teachers in a new informational unit. This introduction week will focus in on organization and structure for this new genre. We will structure a table of contents and chapters in their writing for this unit.

Science

The first half of our week will be reviewing five regions of Georgia before we take an open note assessment early in the week. Then we will zoom out to a broader view as we learn about adaptations throughout regions around the world. We will talk about the arctic, desert, forest, ocean and how animals and plants have specific characteristics to survive in these environments.
